DOG LOVER'S GUIDE

Where to Eat

The Hill Country is swarming with restaurants, from dive bars to fine dining. If you're here, it's important to know where you and your dog will get a warm welcome from the wait staff. We maintain an active list of the following dog-friendly restaurants for our guests! Many of these establishments may require you to stick to outdoor seating, so if they're on this list it's still worth asking what their rules are.

Where to Drink—Wineries that Dogs Love

One of the most wonderful things about the Hill Country is the wine! The following tasting rooms welcome your dog companions. Again, we recommend asking what they allow and don't allow and definitely keep them on a leash. Many of these open spaces look great for running your dog but it may be off-limits. Regardless, there's no reason not to go and enjoy these places! They are ordered nearest to farthest from our retail location.
